

MICROBIOLOGY STANDARDS

We offer the broadest selection of microbiological certified reference materials so you can ensure the accuracy of your results.

Featured Products:

- Rehydration Fluids
- Unit Dose™ Microbiological Controls
- Quantitative Cultures for USP: 51, 61, 62
- Snap Stick™ Ready-to-Use Culture Swabs

Microbiology CRMs:

- Easy to use
- Traceable - never more than two passages from the primary culture
- 24 month shelf life from manufacture date
- Quality assured - ISO 17043, ISO 17034 and ISO 17025 Accredited

NCTC and NCPF are reference cultures obtained from the National Collection of Type Cultures and National Collection of Pathogenic Fungi, two collections of the UK Health Security Agency. ATCC is a registered trademark of American Type Culture Collection. NRRL reference cultures obtained from USDA NRRL ARS culture collection.

Product stability claims including post-hydration testing, shipping, storage, and shelf-life have been validated by internal and external verification studies and through partner testing organizations in accordance with ISO 17025, ISO 17034, and ISO 17043.
